Schedule Your A/C Tune Up Today!

Warmer weather is almost here and it is time to schedule your air conditioning service. It is a multi point cleaning, safety inspection and performance check. Doing so preserves your system warranty, reduces energy usage and makes your home more comfortable. **Call us** at (336) 298-7598 or **request online here**.

2020 Phase-Out of R22 Affects Older AC Units

The EPA is phasing out the refrigerant that is found in almost all AC units installed before 2012. By 2020 R22 will not be available and even now, its price has skyrocketed. If you've had to add refrigerant to your old AC in the last few years, this affects you. **Click Here** to learn what your options are.

Meet the new Nest E Thermostat! Is it a Do It Yourself Project?

Nest Products has just introduced the Nest E. This economical wifi smart thermostat can be installed on most HVAC systems and is one of the **products we offer as a Nest Professional contractor**. Should you try to install this thermostat yourself or call a pro?

Click Here to read what should be considered before attempting a DIY thermostat replacement.

Home Comfort and Energy Efficiency Go Hand in Hand.

Many homeowners experience high energy bills every summer and/ or winter. Certain rooms in their house are never comfortable. Do you need a new heating and cooling system? Or is your home leaking energy and comfort? **Click Here** to learn what you can do to find out.

Leave a Review!

Our business counts on reviews from our customers. It gives us valuable feedback on our level of service, helps others learn about us, and helps us rank higher on internet searches. **Click here** or use the QR code to leave a review!
